FROM THE PROPRIETRESS' DESK

Warm greetings from Page Schools!

It has been a smooth sailing into the “Last lap” (Third Term) of the school year. Time has flown by really fast and it feels like yesterday when we started first term, and now here we are, ready to tackle the final stretch together!

This third term is going to be filled with exciting opportunities for growth and learning and we also have some fantastic and engaging activities planned. We are committed to making this term memorable and inspiring for all our students.

Our Teachers have also been on top of their work ensuring that the pupils and students are nurtured for excellence.

As we embark on this last lap, although in a very challenging economic environment, we will continue to leverage on the efforts of our parents for the continuous support, dedication and enthusiasm for education and belief in our school's mission.

Together, we have created a vibrant and nurturing learning environment that empowers our pupils and students to reach their full potential.

I'm confident that this term will be filled with new discoveries, challenges, and achievements. Let's make the most of it and create lasting memories together.

We also encourage full participation of Pupils, Students, Teachers, Parent and Friends in all our forth coming events for the term.

Wishing you a fantastic start to the third term as we continue “Nurturing for Excellence”.

• WHAT DOES ART MEAN TO YOU?

Art can be anything, including an expression, a painting, illustration, spoken or written word, performance, music, or dance.

It can also mean a highly diverse range of human activities engaged in creating auditory, visual, or performed pieces that express the artist's technical or imaginative skill.

Our Junior Students experienced and understood all of these during their visit to Arts and Crafts Village.

EARLY YEARS CORNER

The kids have had a great start and it feels good that we are already in the Third Term of the 2023/2024 session.

They are ecstatic and settled into our classroom routines.

The kids have been having a blast with various fun activities, including messy play and swimming. They have been exploring, creating, and getting their hands dirty in the most delightful ways.

It's been a joy to see their happy faces and their enthusiasm for learning through play.

It's truly awesome and inspiring to witness the children's enthusiasm as they embark on their exploration of The Solar System this term. Their eagerness to learn about the vast universe is truly remarkable and fills us with excitement for their educational journey ahead. The recent visit to the National Space Research and Development Agency was a pivotal moment, igniting a passion for space exploration among our kids. The experience of viewing the planets in 3D at the astronomy corner was captivating and educational. It is moments like these that truly shape young minds and instill a love for science and discovery. We can not wait to share more about their cosmic adventures in the upcoming newsletter!

BIRTHDAYS

Happy Birthday Jane!

PRIMARY HUB

It's heartwarming to witness the children's return for the third term.

The Assessments were conducted after each lesson and our pupils have been working hard and we are proud of their progress so far.

The Children's day celebration was fun, refreshing and a great opportunity for the children to relax and unwind.

Activities: Primary Pupils have eagerly immersed themselves into the captivating world of "Recycling".

This project does not only focus on the act of recycling but also delve deeper into the essence of sustainability, instilling in them a profound understanding of their role in preserving our environment.

Through these engaging hands-on experiences, the students are evolving into conscientious eco-enthusiasts, poised to create a positive impact on the world around them.

Home Work: A project on the theme will be sent home during the mid-term break.

An excellent time awaits all!

BIRTHDAYS

Happy Birthday Abasiekem!

Happy Birthday Jimeto!

Happy Birthday Aisha!

Happy Birthday Megan & Jordan!

EXCURSION TO NASRDA

It was truly an unforgettable experience at the National Space Research and Development Agency (NASRDA) with our Early Years Pupils 🚀🌟

Our visit was not only educational but also incredibly captivating for our early years pupils.

The astronomy corner and the 3D view of the planets sparked their curiosity and ignited a passion for space exploration! Witnessing the wonder of the universe through their eyes was truly inspiring!

CHILDREN'S DAY CELEBRATION

On the 27th of May, we pulled out all the stops to celebrate the children at Page Schools with a day filled with an array of exciting and engaging activities! The kids had a blast exploring new avenues of fun and learning. The joy and laughter that filled the air were truly infectious, creating unforgettable memories for both the children and the staff. It was a day of celebration, appreciation, and most importantly, a day to honor the incredible journey of growth and discovery that each child is on. Here's to many more moments of joy and learning ahead!

JUNIOR SECONDARY

Excursion to Abuja Arts & Crafts Village, Abuja

To complement their classroom experience in creative and cultural art, our students took a learning visit to the Abuja Arts and Crafts Village. This vibrant hub showcases the diverse cultures of Nigeria through artistic expressions such as paintings, beadwork, and sculptures. The village features a wide array of art pieces, providing a sensory feast and a unique opportunity for students to connect with local artisans. During the visit, students engaged in drawing and painting, applying the artistic skills they have been taught. They also had the pleasure of joining the Nigerian National Troupe in practicing rhythmic dance steps, much to the delight of the dignitaries present.

Literacy Day

The Literacy Day themed, "An Educated Mind Should Rule the World," aptly captured the essence of the day's activities. Our students skillfully participated in various presentations, including spoken word performances, poetry recitations, playlets, and fable readings. These activities are testaments to the quality of teaching and the robust enrichment programs instituted in our school.

School Farm

Our students had an exciting experience engaging in real-life crop cultivation at the school farm. This hands-on activity was designed to complement the theoretical teaching of agriculture in the classroom, promoting practical learning and a deeper understanding of agricultural practices.

Children's Day

After weeks of academic activities, the students enjoyed a fun-filled Children's Day on the school premises. The day was packed with refreshments and amusement games, providing the children with ample opportunities to relax, have fun, and create lasting memories.
