OCTOBER, 2024 | VOLUME 22

## FROM THE DIRECTOR'S DESK

Greetings from all of us at Page Schools!

We have gone halfway through first term of the 2024/2025 academic session, the past few weeks have been a time of exciting transitions, especially for our new pupils and students who are settling into their classes and adapting to our vibrant school environment. It's inspiring to see our returning students welcoming them with open arms.

Adjusting to new classes and routines can be challenging, but our learner-centered approach has proven effective in supporting every pupil and student's journey.

Our dedicated teachers have embraced this approach, ensuring that each child's unique strengths and interests are recognized and nurtured. The engagement and enthusiasm in our classrooms have been a joy to witness, reflecting our collective commitment to fostering a love for learning.

The mid-term break offered us all a valuable opportunity to pause, recharge, and reflect. Also allowing for some well-deserved rest. It's essential to return to our studies refreshed and ready to embrace the second half of the term. Looking ahead, we have many exciting initiatives planned. The second half of the term will see us deepening our academic pursuits while continuing to emphasize social and emotional well-being. Our upcoming projects will not only enhance our curriculum but also encourage collaboration and creativity among our pupils and students.

We thank Our Parents for their continued support in this journey of their children's education and development. Your involvement and support play a crucial role in making these events successful, and we are grateful for your partnership.

Be rest assured, Page Schools is always, Nurturing for Excellence.

We had a wonderful Parent Reading Event with our Early Years pupils this month and it was a huge success. We are grateful to our amazing community of parents who support their children's learning in and out of the classroom.

## TEACHERS' DAY

Teachers' Day celebration was a heartwarming event filled with gratitude and appreciation for our dedicated teachers. The day began with a special assembly where pupils and students expressed their admiration through heartfelt speeches and performances.

A highlight of the day was a surprise appreciation ceremony. Each teacher received a personalized gift from the Head of School, along with notes from pupils, students and parents reflecting on their favorite memories and lessons. The atmosphere was filled with joy, and many teachers were visibly touched by the gestures.

It was a day that reinforced the bond between students and their teachers, making everyone feel valued and cherished. Overall, the Teachers' Day celebration at Page Schools was a memorable occasion, honoring those who inspire and educate the next generation.

## MESSY PLAY

Messy Play Day for our Early Years pupils was a whirlwind of fun and exploration! Our pupils eagerly gathered to scrub and rinse their favorite dolls in a bubbly water area while learning about care and responsibility in the process.

The painting area was alive with creativity. Armed with brushes, sponges, and their hands, the little artists explored vibrant colors on paper. The freedom to express themselves was wonderful to witness, with each piece becoming a unique creation, reflecting their imaginative minds.

Finally, the mini sand area was a treasure trove of discovery. They dug, built, and created, using shovels and buckets to craft beautiful designs.

Throughout the day, the joyful chaos of messiness fostered social skills, creativity, and sensory development. By the end of the day, the smiles on their faces were truly priceless. It was a fantastic celebration of play, learning, and connection!

## HOW TO HELP YOUR KIDS AVOID TECH ADDICTION IN A SCREEN-OBSSESSED WORLD

With screens becoming a constant presence in our homes, many parents worry about their kids falling into the trap of tech addiction. From video games to endless YouTube loops, it's easy for children to get consumed by technology. But it doesn't have to be that way. Here are some practical ways to help your kids navigate the digital world without getting hooked.

### 1. Set Firm Screen Time Limits

Technology is part of life, but it's important to keep it in check. Establish clear daily or weekly screen time limits for your kids, balancing educational use with entertainment. Boundaries will help prevent screens from taking over.

### 2. Encourage Outdoor and Creative Activities

Screens are no match for the benefits of physical play and creativity. Whether it's sports, art, or reading, encouraging hobbies that don't involve a device can make a big difference in your child's development and well-being.

### 3. Be the Example

Kids mirror what they see. If you're constantly on your phone or tablet, they'll follow suit. Model healthy screen habits by limiting your own use, especially during family time, and show them that tech doesn't need to dominate your life.

### 4. Create Screen-Free Spaces

Designating certain areas in your home as tech-free—like during meals or in bedrooms—helps foster connection and encourages kids to engage with their surroundings instead of a screen.

### 5. Monitor Their Digital Diet

Not all screen time is bad, but it's essential to know what your kids are watching or playing. Steer them towards age-appropriate, educational, or creative content, and make time to discuss what they're consuming online.

### 6. Prioritize In-Person Social Interaction

While digital friendships can be fun, nothing beats face-to-face socialization. Encourage real-world playdates, family gatherings, and activities where your kids can interact with peers and build strong social skills away from the screen.

### 7. Educate Them on Responsible Tech Use

Talk openly with your kids about the benefits and risks of technology. Teach them how to use it purposefully, whether it's for learning, creativity, or communication, and explain the importance of balance.

### 8. Make Time for Family Activities Without Screens

Whether it's game night, cooking together, or a family hike, create regular opportunities for connection that don't involve technology. These moments are essential for building strong family bonds and reinforcing the idea that life isn't just about what's happening on a screen.

By guiding your kids toward healthier habits and helping them find a balance between tech and the real world, you can ensure that screens remain a tool—not a crutch—in their lives.

## EARLY YEARS CORNER

The Early Years section has been amazing, and it's heartwarming to reflect on how far we have come. From the beginning, our focus has been on creating a nurturing and stimulating environment where our children can explore, learn, and grow.

Each day brings new discoveries as they engage in hands-on activities, collaborate with their peers, and express their creativity. We are especially grateful for the support and involvement of our parents. A heartfelt thank you goes to Mr. Olajide for honoring our parent reading invitation. His participation not only enriched our reading sessions but also modeled the value of sharing stories and fostering a love for books.

As we look ahead, we're excited to continue this journey together, celebrating each milestone and cherishing the wonderful moments of growth and discovery. Thank you all for being such an integral part of our community!

## PRIMARY HUB

World Science Day is coming up soon! It's a fantastic opportunity for our primary pupils to dive into the wonders of science. We will be exploring exciting experiments and hands-on activities that will ignite their curiosity.

We also ask that all pupils come prepared with their white colored laboratory coats.

**ACADEMIC ACTIVITIES:** Upon resumption for the second half term; teachers have commenced lesson delivery with formative (on going) assessments given to check pupils understanding. We have a few more weeks to the final exams. Pupils will bring back books to study frequently . Please guide them and have them handle their books with care.

**COMMUNICATION BOOK:** We appreciate the support from home as regards pupils ability to complete home task given. We encourage parents to give us feedback on the pupils' attitude toward their homework and their ability to complete all activities unaided.

## BIRTHDAYS

Happy Birthday  
Reesa!

# JUNIOR SECONDARY

The month of October kicked off with a joyous celebration of Nigerian Independence Day! Our students made wonderful memories with a lively mini funfair in the school hall. The event featured musical performances and a vibrant showcase of traditional attire representing Nigeria's diverse ethnic groups, fostering a strong sense of unity and pride.

## World Teachers' Day

Our school used the special day to recognize the invaluable contributions of our teachers. We extend our heartfelt gratitude to all who joined us in celebrating and appreciating the dedication of our teaching staff. Your support means a great deal to us and to the teachers who inspire and guide our students every day.

## Midterm Assessment

We're pleased to announce that our students successfully completed their midterm assessments without any issues. Their hard work and dedication were commendable, and we're proud of their accomplishments.

## Midterm Break

After a challenging week of assessments, students welcomed the midterm break with open arms. This well-deserved rest allowed them to recharge in preparation for the final stretch of the term.

Upcoming Event:

## Science Fair

We're eagerly looking forward to our upcoming Science Fair, a student-led exhibition that promises to be both inspiring and educational. We hope to see you there to support our students' innovative projects and discoveries.

Thank you for your continued support!
